

Every learner is different.

Discover Your Learning Style

UNDERSTANDING HOW YOU LEARN BEST

Have you ever found yourself thinking...

"Why does everyone else seem to understand this so easily?"

"Why can't I remember what I've studied?"

"Maybe I'm just not academic enough..."

You're certainly not alone.

The truth is, there is no such thing as a brain that can't learn.

There are simply different ways that people process information.

Some people think in pictures. Some remember conversations.

Some need to write everything down. Others learn best by doing.

Once you understand how your brain naturally learns, studying becomes less frustrating, confidence begins to grow, and learning becomes something you can enjoy rather than fear.

This guide will help you discover your preferred learning style, recognise your strengths and explore practical study techniques that make learning work for you.

Because success doesn't come from learning like everyone else. It comes from understanding yourself.

“

“Education is not the filling of a bucket, but the lighting of a fire.”

WILLIAM BUTLER YEATS

Angela's Insight

Over the last twenty years, I've met countless young people who believed they weren't capable because school felt difficult.

Almost without exception, they weren't struggling because they lacked ability. They were struggling because no one had ever helped them discover how they learn best.

One of the most rewarding moments in coaching is seeing a young person realise that nothing is "wrong" with them – they simply learn differently.

Understanding your learning style doesn't just change how you study. It can change how you see yourself.

CHAPTER 1

What Are Learning Styles?

UNDERSTANDING THE DIFFERENT WAYS WE LEARN

The human brain is incredible – but it doesn't work the same way for everyone. Learning styles are the different ways people take in, process, understand and remember information.

Some people learn best when they see something. Others learn best when they hear it. Some need to read and write things down. Others need to move, touch and experience to understand.

These preferences are not about intelligence. They are simply the natural ways your brain is wired to learn.

Understanding your learning style helps you study smarter, not harder. It helps you use techniques that support your strengths instead of fighting against them.

The more you understand how you learn, the more confident, motivated and successful you will become – in school, in life and in your future career.

When you learn in a way that suits you, everything becomes easier.

“

When a flower doesn't bloom, you fix the environment in which it grows, not the flower.”

ALEXANDER DEN HEIJER

Angela's Insight

For years I believed that working harder was the answer. What I now know is that working in a way that suits your brain is what creates real change.

Learning styles are not about labels. They are about understanding – and using that understanding to unlock your potential.

Learning
begins with
understanding
yourself.

SEE IT
HEAR IT
WRITE IT
DO IT
UNDERSTAND IT

You
learn
in a way
that's
uniquely
you.

PROGRESS

CHAPTER 2

The Four Main Learning Styles

UNDERSTANDING THE DIFFERENT WAYS WE LEARN

Over the years, educators and psychologists have identified four main ways people learn best. Most of us use a combination of these styles, but usually have one or two that we naturally prefer.

Understanding these styles can help you:

- ✓ Recognise your strengths
- ✓ Find study techniques that work for you
- ✓ Improve your confidence
- ✓ Learn more effectively and with less stress

The four main learning styles are:

VISUAL

You learn best when you see information in pictures, diagrams, charts or videos.

AUDITORY

You learn best when you hear information through listening, discussion or explanation.

READ/WRITE

You learn best when you read and write things down – lists, notes, words and text.

KINAESTHETIC
(TACTILE)

You learn best when you do things, move, touch and experience ideas hands-on.

“

*Tell me and I forget.
Teach me and
I remember.
Involve me and
I learn.”*

BENJAMIN FRANKLIN

On the following pages, we'll explore each style in more detail – including strengths, challenges and practical study strategies that can make learning work for you.

There is no best learning style. There is only the best way for YOU to learn.

Angela's Insight

I often meet young people who believe they are not good at learning because traditional methods don't work for them. When we discover their learning style, everything changes. They stop fighting themselves and start using strategies that suit their brain. That is when confidence grows – and learning becomes possible.

**You are not here to learn in the same way as everyone else.
You are here to learn in YOUR way.**

See it.
Understand it.
Remember it.

CHAPTER 3

Visual Learners

LEARN BEST BY SEEING

Visual learners understand and remember information best when they can see it. They think in pictures, notice details and often have a strong imagination.

STRENGTHS

- Strong memory for images and diagrams
- Notice details others miss
- Good at reading maps, charts and graphs
- Creative and imaginative

CHALLENGES

- May struggle to remember things just by listening
- Can get distracted by visual detail
- May take longer to take notes

STUDY TIPS

- Use mind maps and diagrams
- Highlight key information
- Use colour to organise notes
- Watch videos and visual explanations

SUBJECTS THEY OFTEN ENJOY

- Art & Design
- Geography
- Science
- Architecture
- Graphic Design
- Engineering
- Film & Animation

“

“The best thing about a picture is that it never changes, even when the people in it do.”

ANDY WARHOL

SIGNS THIS MIGHT BE YOU

- ✓ You prefer pictures, diagrams or videos over long explanations.
- ✓ You use colours, symbols or doodles when you study.
- ✓ You remember where things are on a page more than the words.
- ✓ You enjoy drawing, design or creative activities.
- ✓ You find it easier to understand maps, charts and graphs.
- ✓ You often “see” the big picture.

Angela's Insight

Visual learners often doubt themselves because school doesn't always teach in a visual way. But when they use pictures, colour and visual tools, their confidence grows quickly.

Your brain is designed to learn in your own unique way.
When you embrace that, learning becomes clearer and more enjoyable.

Write it down.
Read it.
Understand it.
Remember it.

Repetition
Creates
Memory

NOTES

- Key Points
- Definitions
- Examples
- Practice

Read
→ Write
→ Remember

WORDS
HAVE
POWER

CHAPTER 4

Read/Write Learners

LEARN BEST BY READING AND WRITING

Read/Write learners understand and remember information best when they read it and write it down. They enjoy words, lists and taking notes. They usually like structure, organisation and clear instructions.

STRENGTHS

- Strong vocabulary
- Good at reading and writing
- Remembers information well when it's written down
- Enjoys lists, notes and structure
- Good at following instructions

CHALLENGES

- May prefer reading over listening
- Can get overwhelmed by large amounts of text
- May take longer to process spoken information
- May focus too much on detail

STUDY TIPS

- Take clear notes
- Use lists, bullet points and headings
- Summarise information in your own words
- Use flashcards for key terms
- Write practice questions and answers

SUBJECTS THEY OFTEN ENJOY

- English
- Languages
- History
- Literature
- Law
- Journalism
- Teaching

“

“The beautiful thing about learning is that no one can take it away from you.”

B.B. KING

SIGNS THIS MIGHT BE YOU

- ✓ You enjoy reading books, articles or information.
- ✓ You prefer written instructions over verbal ones.
- ✓ You take lots of notes in class.
- ✓ You like using lists, planners or to-do lists.
- ✓ You remember things better when you write them down.
- ✓ You enjoy writing stories, poems or journals.
- ✓ You like clear structure and organisation.

Angela's Insight

Read/Write learners often underestimate themselves because they may not participate as much in verbal discussions. But when they express their thoughts in writing, their understanding shines through.

Your ability to think deeply and express yourself in words is a strength. Trust your process – your words have power.

Do it.
Feel it.
Understand it.
That's how
I learn.

CHAPTER 5

Kinaesthetic (Tactile) Learners

LEARN BEST BY DOING AND EXPERIENCING

Kinaesthetic learners understand and remember information best when they use their body, hands and sense of touch. They learn by moving, doing and experiencing things for themselves.

STRENGTHS

- Learn quickly through hands-on experience
- Good at practical tasks and problem solving
- Strong coordination and physical skills
- Adapt well to changing situations
- Enjoy active learning environments

CHALLENGES

- May find it hard to sit still for long periods
- Can be impatient with too much theory
- May forget details that weren't experienced
- Easily distracted in passive learning situations

STUDY TIPS

- Use practical examples and real-life situations
- Take breaks and move regularly
- Use role play, simulations and activities
- Walk while revising or listen while moving
- Teach or show others what you've learned

SUBJECTS THEY OFTEN ENJOY

- Physical Education
- Science (experiments)
- Engineering
- Drama
- Design & Technology
- Outdoor Education
- Healthcare
- Cooking & Nutrition

SIGNS THIS MIGHT BE YOU

- ✓ You prefer learning through activities, experiments or real-life examples.
- ✓ You find it difficult to sit still for long periods.
- ✓ You need breaks or movement to stay focused.
- ✓ You remember things better when you've experienced them.
- ✓ You enjoy building, fixing, creating or being outdoors.
- ✓ You learn best when you are actively involved.

“

*Tell me and I forget.
Teach me and
I remember.
Involve me and
I learn.”*

BENJAMIN FRANKLIN

Angela's Insight

Kinaesthetic learners are often full of energy, curiosity and creativity. They can become frustrated in traditional classrooms that limit movement and hands-on learning.

When they are given freedom to move, explore and create, they truly come alive. Their learning becomes deeper and lasts longer.

Hear it.
Discuss it.
Understand it.
That's how
I learn.

KEY POINTS

- Listen
- Understand
- Remember
- Explain

DISCUSS
SHARE
DEBATE
LEARN

Talk it
through

CHAPTER 6

Auditory Learners

LEARN BEST BY HEARING AND LISTENING

Auditory learners understand and remember information best when they hear it. They learn well through listening, speaking and discussing ideas with others.

STRENGTHS

- Good listening skills and attention
- Remembers spoken information well
- Enjoys discussions and debates
- Good at explaining things to others
- Picks up tone, pace and meaning in conversations

CHALLENGES

- May struggle with reading long texts
- Can be distracted by background noise
- May need information repeated
- Might prefer talking over writing
- Can forget important details if not spoken about

STUDY TIPS

- Listen to podcasts, audiobooks or explanations
- Record key points and listen back
- Discuss topics with friends or family
- Read information out loud
- Teach someone else what you've learned

SUBJECTS THEY OFTEN ENJOY

- Music
- Languages
- Drama
- History
- Psychology
- Politics
- Radio & Broadcasting
- Teaching

“

“The art of communication is the language of leadership.”

JAMES HUMES

SIGNS THIS MIGHT BE YOU

- ✓ You prefer listening to reading.
- ✓ You enjoy discussions and group conversations.
- ✓ You remember spoken information more easily than written.
- ✓ You like music, songs or spoken stories.
- ✓ You benefit from talking things through.
- ✓ You often “hear” the answers in your head.
- ✓ You learn well from verbal instructions and explanations.

Angela's Insight

Auditory learners often think deeply and enjoy meaningful conversations. They may not always shine in traditional written assignments, but they have a powerful way with words and ideas.

When they are encouraged to speak, listen and share, they build confidence and their true potential emerges.

Why It's Hard to Learn the Way I Do

It's Not You, It's How You Learn. ♥

Sometimes school feels hard, confusing or overwhelming. This can happen when the way you learn isn't being used in the classroom. It can lead to frustration, stress and self-doubt. But the good news is... once you understand your learning style, you can learn in a way that finally works for YOU.

Do these sound familiar?

I can't follow what is being said.

You might learn better when you can see something, read it, or take your time to process.

I'm not taking in all the information.

You might need to see it, hear it and do it – not just hear it once.

I keep forgetting what happened in class.

You might need help with memory techniques or revision strategies that suit your brain.

I don't know how to study.

There is no one "right" way to study. There is only the way that works for YOU.

I get easily distracted.

You might need movement, breaks or a calmer space to help you focus.

What can help? ♥

Know your learning style.

This is the key! It helps you understand how your brain works best.

Use strategies that suit you.

Everyone learns differently. Find what helps you remember, focus and understand.

Take small steps.

Don't try to change everything at once. One small step can make a big difference.

Be patient with yourself.

You've probably been trying to learn in ways that don't work for a long time.

Ask for help.

A good teacher, tutor, friend or coach can help you find the right tools.

The truth is... ♥

You are not "bad" at learning. You are just learning in a way that doesn't match your style. When you learn in a way that suits you, everything becomes easier and more enjoyable.

You can do this. ♥

There is more than one way to learn. Find yours. ♥

A Note from Angela ♥

I have heard these struggles from so many young people.

They are not lazy.

They are not not trying.

They are not stupid.

They are learning in a way that doesn't work for them.

When you understand your learning style, everything starts to make sense.

And when things make sense, you can finally move forward with confidence.

Angela O'Sullivan
FOUNDER, MORE THAN POINTS

Understanding why things feel hard is the first step to making them better.

MORE THAN POINTS ♥
Helping young people discover their worth, their strengths and their future.

Think it through. Break it down. Organise it. That's how I learn.

CHAPTER 8

Logical (Mathematical) Learners

LEARN BEST BY THINKING, REASONING AND SOLVING

Logical learners understand and remember information best when it makes sense. They enjoy patterns, systems and problem-solving. They like to analyse, question and work things out for themselves.

STRENGTHS

- Strong problem-solving skills
- Good at recognising patterns
- Analytical and inquisitive
- Enjoys numbers and systems
- Works well with logic and structure

CHALLENGES

- May become bored with repetition
- Can overthink or overanalyse
- May struggle with subjects that feel unstructured
- Perfectionism can cause stress

STUDY TIPS

- Break information into steps
- Use charts, tables and flowcharts
- Solve practice problems
- Look for patterns and connections
- Use logic games and puzzles

SUBJECTS THEY OFTEN ENJOY

- Mathematics
- Physics
- Computer Science
- Economics
- Accounting
- Engineering
- Philosophy
- Chemistry

SIGNS THIS MIGHT BE YOU

- ✓ You enjoy solving problems and figuring things out.
- ✓ You like numbers, patterns and step-by-step processes.
- ✓ You ask "why" and want to understand how things work.
- ✓ You enjoy strategy games, puzzles or brain teasers.
- ✓ You prefer clear rules and logical explanations.
- ✓ You learn best when things "make sense" to you.

“

“Pure mathematics is, in its way, the poetry of logical ideas.”

ALBERT EINSTEIN

Angela's Insight

Logical learners often thrive when they are challenged — but they also need balance. The world needs both heart and logic, creativity and reason.

When you trust your ability to think deeply and solve problems, you can achieve amazing things.

Make
meaning. Connect
the dots. See the
bigger picture.

LOOK
AT THE
WHOLE

CONNECT
COMPARE
REFLECT
♡

SEE BEYOND
THE SURFACE
♡

CHAPTER 9

Visual (Spatial) Learners

LEARN BEST BY SEEING AND VISUALISING

Visual learners understand and remember information best when they see it. They think in pictures and prefer diagrams, charts, maps and written information.

STRENGTHS

- Good at visualising concepts
- Remembers what they see
- Strong imagination
- Notices details in pictures and diagrams
- Enjoys colour, design and layout
- Thinks in images and patterns

CHALLENGES

- May find it hard to follow long verbal explanations
- Can get distracted by visual surroundings
- May struggle with information that isn't well presented visually
- May need more time to organise visual information

STUDY TIPS

- Use mind maps and diagrams
- Colour code your notes
- Use charts, tables and graphs
- Watch videos or visual demonstrations
- Draw what you learn to remember it better
- Use highlighters and symbols

SUBJECTS THEY OFTEN ENJOY

- Art & Design
- Geography
- Architecture
- Photography
- Film & Animation
- Graphic Design
- Engineering
- Biology

“

*“Visualise your
highest self and
start showing up
as her.”*

UNKNOWN

SIGNS THIS MIGHT BE YOU

- ☒ You remember things better when you see them written down.
- ☒ You enjoy drawing, doodling or using diagrams.
- ☒ You like using colour, images and symbols in your notes.
- ☒ You find videos or pictures more helpful than long explanations.
- ☒ You enjoy maps, layouts and visual planners.
- ☒ You prefer to see examples rather than just hear about them.
- ☒ You think in pictures or have a strong visual imagination.

Angela's Insight

Visual learners bring creativity, imagination and perspective to the world. They see possibilities others may miss and can turn ideas into something real and beautiful.

Use your vision as a superpower. See the bigger picture and create the future you dream of.

Speak it.
Move it.
Remember it.
That's how
you learn.

♡

CHAPTER 10

Verbal (Linguistic) Learners

LEARN BEST BY TALKING, READING AND WRITING

Verbal learners understand and remember information best when they use words. They enjoy language, stories and discussions, and love to express ideas through speaking and writing.

STRENGTHS

- Strong reading and writing skills
- Enjoys storytelling and poems
- Remembers names, details and facts
- Good at expressing thoughts and ideas
- Enjoys conversations and debates
- Has a wide vocabulary

CHALLENGES

- May talk too much in class
- Can get distracted by chatting
- May find silent reading boring
- May find it hard to summarise information
- Can be sensitive to criticism

STUDY TIPS

- Read out loud when studying
- Use flashcards with keywords
- Write summaries and mind maps
- Join study groups and discussions
- Teach the topic to someone else
- Record yourself explaining ideas

SUBJECTS THEY OFTEN ENJOY

- English & Literature
- Languages
- History
- Law
- Journalism
- Teaching
- Communications
- Public Speaking
- Writing & Publishing

SIGNS THIS MIGHT BE YOU

- ✓ You enjoy reading books, articles and stories.
- ✓ You like writing essays, stories or journals.
- ✓ You remember things better when you hear or say them.
- ✓ You enjoy word games, crosswords and puzzles.
- ✓ You like explaining ideas and giving opinions.
- ✓ You are often the one telling stories or leading discussions.
- ✓ You learn well from lectures, podcasts and audiobooks.

“

*“The limits of
my language
mean the limits
of my world.”*

LUDWIG WITTGENSTEIN

Angela's Insight

Verbal learners are natural communicators. You have the gift of words — use it to connect, inspire and create. Don't hold back your voice.

When you use your words with purpose, you can influence, encourage and make a real difference.

Organise it.
Make it real.
Reflect on it.
That's how
you learn.

CHAPTER 11

Solitary (Intrapersonal) Learners

LEARN BEST BY WORKING ALONE AND REFLECTING

Solitary learners understand and remember information best when they work alone, take time to think and reflect, and follow their own pace and processes.

STRENGTHS

- Self-motivated and independent
- Strong sense of self and purpose
- Good at setting and achieving goals
- Works well without external distractions
- Enjoys deep thinking and personal reflection

CHALLENGES

- May isolate too much from others
- Can be too self-critical or perfectionistic
- May hesitate to ask for help
- Doesn't always get other perspectives
- Can overthink and delay decisions

STUDY TIPS

- Create a quiet space for focused work
- Set clear goals and deadlines for yourself
- Keep a journal to reflect ideas
- Use planners or to-do lists
- Review and assess your own progress
- Take regular breaks to recharge

SUBJECTS THEY OFTEN ENJOY

- Psychology
- Philosophy
- Creative Writing
- Computer Programming
- Research Subjects
- Mathematics
- Theology
- Science (independent study)
- Entrepreneurship

SIGNS THIS MIGHT BE YOU

- ✓ You enjoy being alone and need time by yourself.
- ✓ You prefer doing your own thing rather than group work.
- ✓ You think deeply and reflect on your thoughts and feelings.
- ✓ You like to set your own pace and follow your own plan.
- ✓ You keep a journal, write poems or enjoy creative alone time.
- ✓ You value your personal space and independence.
- ✓ You learn best when you can focus without interruptions.

“

*“Knowing yourself
is the beginning
of all wisdom.”*

ARISTOTLE

Angela's Insight

Solitary learners have a rich inner world. You notice what others might miss and think about things on a deeper level.

**When you trust yourself and take time to reflect,
you discover your strengths, your direction
and your unique gifts.**

Make connections.
Build bridges.
That's how we learn.

EVERY VOICE MATTERS
LEARN FROM EACH OTHER
TOGETHER WE GROW

CHAPTER 12

Social (Interpersonal) Learners

LEARN BEST BY INTERACTING AND COLLABORATING

Social learners understand and remember information best when they learn with others. They enjoy group work, discussions and sharing ideas.

STRENGTHS

- Strong communication and listening skills
- Enjoys teamwork and collaboration
- Empathetic and supportive
- Good at building relationships
- Thrives in group environments

CHALLENGES

- May be distracted by socialising
- Can rely too much on others
- May find solo work difficult or boring
- May avoid conflict to keep the peace
- Needs encouragement to focus on own goals

STUDY TIPS

- Join study groups or discussion circles
- Teach others what you've learned
- Use group projects and role play
- Discuss topics out loud
- Share ideas and ask for feedback

SUBJECTS THEY OFTEN ENJOY

- Human Resources
- Social Work
- Education
- Psychology
- Public Relations
- Marketing
- Events Management
- Political Science
- Community Work
- Team-based Careers

“

Alone we can do so little; together we can do so much.”

HELEN KELLER

SIGNS THIS MIGHT BE YOU

- ✓ You learn best when you talk things through with others.
- ✓ You enjoy group discussions and brainstorming.
- ✓ You like helping others and working as part of a team.
- ✓ You remember what you discuss more than what you read.
- ✓ You feel motivated by encouraging and supportive people.
- ✓ You learn best when you feel connected and included.

Angela's Insight

Social learners are the heart of connection. You have the ability to bring people together, inspire collaboration and create positive change.

When you learn with others, you grow together, support each other and achieve more than you ever could alone.

Keep going.
Keep growing.
Keep learning.
That's how
we become.

BE CURIOUS

CHAPTER 13

The Lifelong Learner

LEARN FOR LIFE, NOT JUST FOR SCHOOL

Lifelong learners are curious, open-minded and always ready to grow. They see learning as a lifelong journey that opens doors, creates opportunities and brings meaning and fulfilment.

STRENGTHS

- Curious and open to new ideas
- Enjoys discovering new things
- Resilient and adaptable
- Can learn in different ways and places
- Sees challenges as opportunities

CHALLENGES

- May start many things but struggle to finish
- Can lose motivation if learning feels repetitive
- May feel unsure about what path to take
- Can be overwhelmed by too many options

STUDY TIPS

- Set learning goals that inspire you
- Mix subjects and learning methods
- Use online courses, podcasts and books
- Reflect on what you've learned
- Celebrate progress and small wins

SUBJECTS THEY OFTEN ENJOY

- Any subjects that spark curiosity!
- Personal Development
- Technology
- Entrepreneurship
- Languages
- Environmental Studies
- Creative Arts
- Philosophy

“

*“Live as if you
were to die tomorrow.
Learn as if you were
to live forever.”*

MAHATMA GANDHI

SIGNS THIS MIGHT BE YOU

- ✓ You love learning new things, even outside of school.
- ✓ You enjoy exploring different subjects and ideas.
- ✓ You are excited about the future and what you can do.
- ✓ You ask lots of questions and want to understand deeply.
- ✓ You see learning as part of who you are, not just what you do.
- ✓ You want to keep growing and improving all your life.

Angela's Insight

The world is always changing — and so are you. There will always be more to learn, more to explore and more to become.
When you commit to lifelong learning, you invest in yourself. You build confidence, stay inspired and create a life full of purpose and possibility.

You've got this. One step at a time. That's how we grow.

CHAPTER 14

Your Learning Journey

OWN IT. ENJOY IT. MAKE IT YOURS.

Learning is a journey, not a race. Everyone's path looks different. The most important thing is to keep moving forward and never stop believing in yourself.

STRENGTHS

- Takes responsibility for your learning
- Independent and self-directed
- Sets goals and works towards them
- Learns from experience
- Adapts and keeps going
- Finds purpose and meaning

CHALLENGES

- May doubt yourself at times
- Can become overwhelmed if you take on too much
- May get discouraged by slow progress
- Can be too hard on yourself
- May need support to stay balanced

STUDY TIPS

- Plan your learning in steps
- Use a journal to track your journey
- Celebrate small milestones
- Reflect on what works and adjust
- Ask for help when you need it
- Keep learning outside the classroom

SUBJECTS THEY OFTEN ENJOY

- Anything that offers growth or purpose
- Psychology
- Business & Leadership
- Health & Wellbeing
- Travel & Geography
- Sustainability
- Coaching & Mentoring
- Education & Teaching
- Creative Arts

SIGNS THIS MIGHT BE YOU

- ✓ You have a clear sense of direction and purpose.
- ✓ You enjoy learning that helps you grow as a person.
- ✓ You like having freedom and making your own choices.
- ✓ You are motivated by personal goals, not just rewards.
- ✓ You reflect on your progress and learn from it.
- ✓ You keep going, even when things get tough.
- ✓ You inspire others with your determination.

“

“The journey of a thousand miles begins with one step.”

LAO TZU

Angela's Insight

Your learning journey is yours alone — and that's what makes it so powerful. Follow your own path, trust your instincts and never stop believing in where you're going.

You have the power to shape your future.

Keep showing up for yourself. The best is yet to come.

You're
always learning.
You're always
growing.
You're enough.

My Learning Pledge

- I am curious.
- I try my best.
- I ask questions.
- I learn from mistakes.
- I keep going.
- I believe in myself.

This is my journey. ♥

CHAPTER 15

Keep Growing, Keep Going

YOU HAVE EVERYTHING YOU NEED TO SUCCEED

Learning doesn't stop when the course ends. The world is full of opportunities for those who stay curious, keep going and believe in themselves.

KEEP GROWING

- Stay curious and open-minded
- Explore new ideas and skills
- Read, listen and learn every day
- Step outside your comfort zone
- Never stop asking questions

STAY MOTIVATED

- Remember why you started
- Set new goals for yourself
- Celebrate your achievements
- Find inspiration in others
- Believe in your future

BUILD YOUR NETWORK

- Connect with people who inspire you
- Share ideas and learn together
- Support and encourage others
- Be a positive and reliable friend
- Stronger together

LOOK AFTER YOU

- Take breaks when you need them
- Practice self-care and balance
- Be kind to yourself
- Focus on your wellbeing
- You matter

LIFE SKILLS YOU'RE BUILDING

- | | | |
|---|---|---|
| ☒ Communication | ☒ Time Management | ☒ Decision Making |
| ☒ Problem Solving | ☒ Adaptability | ☒ Leadership |
| ☒ Teamwork | ☒ Confidence | ☒ Self-Awareness |
| ☒ Critical Thinking | ☒ Resilience | |

YOUR NEXT STEPS

- ♥ Reflect on what you've learned and how far you've come.
- ♥ Set new goals and take one small step today.
- ♥ Keep using the strategies and tips from this guide.
- ♥ Remember – you are capable, strong and unstoppable.
- ♥ Your future is bright – go and create it!

You are enough.
You are doing great.
Keep believing in you.

“

“The beautiful thing about learning is that no one can take it away from you.”

B.B. KING

Angela's Insight

You have the power to shape your future. Keep learning, keep growing and never stop believing in yourself. The world needs your voice, your ideas and your unique gifts.
Trust your journey. You've got everything you need to create the life you dream of.

Ready to Discover Your Potential?

 Every young person deserves the chance to understand how they learn, where their strengths lie and what pathway is right for them.

At **More Than Points**, I work with teenagers and parents to build confidence, identify strengths and create a future that is based on potential—not pressure.

Whether you're feeling overwhelmed by subject choices, unsure about career options or simply looking for clarity, **coaching can help you move forward with confidence.**

I CAN HELP YOU WITH:

- ✓ Discovering your learning style
- ✓ Identifying your unique strengths
- ✓ Career and pathway exploration
- ✓ College, PLC and apprenticeship guidance
- ✓ Building confidence and motivation
- ✓ Goal setting and action planning
- ✓ Parent support and guidance
- ✓ Creating a personalised plan for your future

YOU ARE
FAR MORE
THAN YOUR
POINTS.

Angela's Final Message

“For over twenty years, I've worked with young people who believed they weren't capable enough. Time and time again, I've watched those same young people flourish—not because they suddenly became more intelligent, but because they finally understood themselves.

Every learner has strengths. Every learner has potential. Sometimes all that's needed is someone to help uncover it.

If this guide has helped you see yourself differently, then it has already achieved its purpose.

I would be delighted to help you take the next step on your journey.

Remember... you are far more than your points.

You are enough.

YOU ARE DOING GREAT. KEEP BELIEVING IN YOU.
You have the power to shape your future.

MORE THAN POINTS

Coaching for Life Beyond the Points 

DISCOVER. GROW. ACHIEVE. THRIVE.

Let's start your journey together. 

I LOOK FORWARD TO HEARING FROM YOU.
